

## Waters 486 UV Detector

---

[Read more on the listing...](#)

This newer style Waters 486 UV Detector has a wavelength range of 190nm to 600nm.

---

The Waters 486 is designed to provide a usable light intensity over the wavelength range of 190-600 nanometers.

**Original Wavelength repeatability:** +/- 0.25nm

**Original accuracy:** ±2nm

**Original Sensitivity setting range:** 0.1 to 5.0 AUFS

**Filter setting range:** 0.1 to 5.0 sec.

**Bandwidth:** 8nm

**Flow cell volume:** 8ul

**Pressure:** 1000psi

Output for both Integrator and Chart Recorder.

**Operating Voltage:** 230 Volts AC

This 486 is in excellent condition - Please contact us for any further information.
